A few words about
Alexander
mills

Alexander handcrafted mills are products of high quality and professional functionality.

They have been handcrafted in Greece since 1977 and have been exported to over 28 countries since 1981. Their long-standing presence in the world market and their appearance on the major overseas resellers websites, in the US and Europe, have placed them first in the preferences of professionals and home users over the last 25 years.

Unlike other mills which have a 20mm(0.8'') diameter mechanism, Alexander mills are equipped with various sizes of 100% metal

mechanisms, depending on their size. For example, the pepper mill #001 has 23mm(0.9'') diameter mechanism, # 103 38mm(1.5'') and #900 has 48mm(1.9'') diameter. This helps them grind pepper in very large quantities easy, in no time. Their cutting mechanism works with 3DCut technology, designed to really grind peppercorns and not just smash them, maximizing its flavor and aroma.

The grinding is done in three steps (3DCut):

1st: *Grabs and cracks each peppercorn and breaks it in half*

2nd: *Cuts them into smaller pieces*

3rd: *Sends them to the small teeth and grinds them to the selected thickness.*

Salt and coffee mills also grind with the same 3D Cut technology. All pepper and coffee mills have an adjustable mechanism between fine and coarse grinding. Coffee mills are ideal for grinding filter coffee (French coffee, espresso, cappuccino etc.).

Salt mills grinding mechanisms are 38mm in diameter, are made of stainless steel and very tough polyamide (30% glass). Each mill provides plenty of room, to fill it with pepper, salt or coffee.

Today, the ALEXANDER Handcrafted Mills Company (P. Ioannou – G. Zarkadis. Co), exports its biggest part of production in the USA, Australia and UK, markets which due to the high quality of the products, show great appreciation in the ALEXANDER mills products. However, a remarkable part of the production is sold into other markets such as Canada, Netherlands, France, Italy, Germany, Denmark, Romania, Switzerland, United Arab Emirates, Thailand, Portugal, Finland, Russia, Serbia, Ukraine etc. You can find them all over the world under the name "ALEXANDER" in various retail stores, as well as abroad, under the Brand name "ATLAS".

*Alexander Handcrafted Mills
have been present in the world
market since 1977, with over
2.150.000 sales volume*

*‘Alexander Handcrafted Mills’
is evolving day by day and is constantly
changing, but one thing will never
change, the dedication of its owners to
the production of high quality,
unstoppable and excellent aesthetics
mills for pepper, salt and coffee, while
always focus on serving each client as
a unique entity*

Remarks:

*Coffee grinders are designed for grinding excellent filter coffee.
All grinders are designed for grinding dried grains (Coffee, pepper, etc., not
soft like cinnamon or cloves).*

*Hematite and Antique series are externally coated with ecological varnish to
protect the plating.*

*Each mill comes in an individual box with instructions leaflet and EAN13
barcode.*

*All our products are handcrafted entirely in Greece. On our web page
(www.brasspeppermill.com) you can find the entire range of spare parts for
our products, instructions for use, care and maintenance.*

Lovely! Heavy, substantial and looks great on the table!
Gaynor

It feels heavy and sturdy in the hand!
Stephen

I like the solid metal construction!
Amanda

These are a beautiful addition to my kitchen. They look and feel top quality. Thank you!
Will

Really sturdy and well-made grinders. Beautiful on our table and we hope will last for a many years to come.
Lisa

Very modern and sleek!
Samantha

Amazing item, heavy brass, classic style and actually very easy to use. Love them.
Jing

I'm in love. They are gorgeous and weighty.
Jeannie

Gorgeous pieces! Would highly recommend!
Syrina

So lovely and beautifully functional!
Stephanie

I love this peppermill! It puts out a lot of pepper fast, it's easy to use and filling it is a snap. I am very happy!
Mike

Produces a lot of ground pepper with ease
Martha

After researching countless pepper mills, I decided on this one based on the reviews. I'm happy to say that it is exactly what I hoped for, and is working like a charm! So happy I chose this beauty!
Zoey

Peripherals

Pepper & salt mill tray.
Made of food safe plastic.
Fits all Alexander mills.

Height: 15mm
Width: 97mm
Length: 198mm
Weight: 60gr

Handcrafted Kitchenware

*Since 1977, we have compassed the
needs for high quality kitchen tools,
uninterrupted operation and
excellent aesthetics, but always with
a particular emphasis on serving
each of our partners, as a unique
entity*

Alexander Handcrafted Mills, was established in the catering industry in 1977, making handcrafted spice and coffee mills.

Its products are characterized by high quality and professional functionality. They have been loved by both professionals and home users worldwide, due to its exports since 1981.

The needs of cooks around the world, both professional and non-professional, have prompted Alexander to develop other quality kitchen utensils.

With the right equipment and always a quality driver, after much effort to achieve excellent results, Alexander is expanding its product range by manufacturing stainless steel tongs for all professionals and amateur chefs, who love quality.

In 2020, Alexander presented the ATLAS series of stainless steel AISI-430 tongs. The alloy used is 100% food-safe and more resistant to high temperatures than other stainless-steel alloys.

Over the years, Alexander has associated its name with excellent manufacturing and functionality of products, that appeal to both professionals and home users, who are fond of quality in their cooking.

Guided by all these and the market demands, we continue to create and treat each of our associates as one and only, in order to satisfy all of their needs.

Chef's best friends

ATLAS tongs

Pine Cone series tongs.

Ideal for BBQ because it hooks the meat. Due to its length, it does not allow the hand to approach the fire.

Suitable for both professional and home use. It has a spring and not a simple laminate at its closure.

Made of stainless steel AISI-430, which is suitable for food and high resistance to high temperatures.

CODE	DESCRIPTION	LENGTH cm/Inch	THICKNESS mm/Inch	USE
16161-R	Stainless-steel AISI-430	25/10	0,9/0.004	BBQ
16171-R	Stainless-steel AISI-430	30/11.8	0,9/0.004	BBQ
16361-R	Stainless-steel AISI-430	40/15.8	0,9/0.004	BBQ

Leaf series tongs.

Ideal for Burger because of its shape. Due to its length, it does not allow the hand to approach the fire.

Suitable for both professional and home use. It has a spring and not a simple laminate at its closure.

Made of stainless steel AISI-430, which is suitable for food and high resistance to high temperatures.

11001	30mm diameter brass cap	1
11002	35mm diameter brass cap	2/102/212/412
11003	40mm diameter brass cap	3/103/104/123/133/213/214/413/414
11004	45mm diameter brass cap	4/303/304/313
11005	50mm diameter brass cap	5/105
11022	35mm diameter brass cap	22
11042	35mm diameter copper cap	42/402
11043	40mm diameter copper cap	43/403/404/423/433
11144	40mm diameter chrome gloss solid cap	144/744
11202	35mm diameter chrome gloss brass cap	202
11203	40mm diameter chrome gloss brass cap	203/204/233
11204	45mm diameter chrome gloss brass cap	323
11205	50mm diameter chrome gloss brass cap	205
11222	30mm diameter brass cap	222
11503	40mm diameter antique brass cap	503
11603	40mm diameter antique copper cap	603
11703	40mm diameter nickel matt brass cap	703/704/733
11704	45mm diameter nickel matt brass cap	723

CODE	DISCRIPTION	MATCHING MILL
11705	50mm diameter nickel matt brass cap	705
11108	40mm diameter brass cap	108/109/128/418/419
11208	40mm diameter chrome gloss brass cap	208/209
11408	40mm diameter copper cap	408/409/428
11500	50mm diameter brass cap	500/501/502/235/353/453
11520	50mm diameter chrome gloss brass cap	520/521/522/253/352/752
11560	50mm diameter antique brass cap	600/601/602/653
11570	50mm diameter nickel matt brass cap	720/721/722/257/753
11590	50mm diameter hematite brass cap	900/901/902/953
11910	40mm diameter hematite gloss brass cap	913/923
11930	40mm diameter hematite matt brass cap	933/943

CODE	DISCRIPTION	MATCHING MILL
10001	Pepper mill grinding mechanism	1
10002	Pepper mill grinding mechanism	2/42
10003	Pepper mill grinding mechanism	3/43/133/233/433/733
10004	Coffee mill grinding mechanism	4/144/744
10005	Coffee mill grinding mechanism	5
10006	Pepper mill grinding mechanism	6/106/706/916/926/936/946
10102	Pepper mill grinding mechanism	102/202/212/402/412/702
10103	Pepper mill grinding mechanism	103/123/203/213/403/413/703/913/923/933/943
10104	Pepper mill grinding mechanism	104/204/214/404/414/704
10105	Pepper mill grinding mechanism	105/205/405/705
10108	Salt mill grinding mechanism	108/208/218/408/418/708
10109	Salt mill grinding mechanism	109/209/219/409/419/709
10200	Pepper mill grinding mechanism	Chef Athena Series
10303	Pepper mill grinding mechanism	303/313/323/723
10304	Coffee mill grinding mechanism	304
10500	Pepper mill grinding mechanism	500/520/600/720/900
10501	Pepper mill grinding mechanism	501/521/601/721/901
10502	Pepper mill grinding mechanism	502/522/602/722/902
